- 1) Leave the Checkpoint and make your way towards the café and toilets. Pass to the left of the toilet block with the lake ahead to join the path that runs around the lake. Turn left and follow the path with the lake on your right.
- 2) Continue on this path passing a sign saying “HORSES THIS WAY”. Do not turn here but continue on the main path until the path comes out onto the roadside pavement.  
**BEWARE – MAIN ROAD – TAKE CARE.**
- 3) At this point cross the road. Walk a few meters to your right on the pavement with metal barrier fence on your left. Then turn left and pass between two solid green posts to follow the obvious path. After a short distance of walking with a small lake on your left you will meet a T junction of paths. Turn right, then after 20m the path forks.
- 4) Take the left fork. Continue on this path as it swings round to the left. Continue on this path noticing it runs parallel to the road.
- 5) When you reach a staggered cross road of paths take the right turn. You will walk downhill for a short distance then cross a small patch of uneven ground. Ignore the entrance ahead of you to turn left onto a path with trees on your left and a metal fence on your right. After a distance of 40m or so turn right to walk through a motorbike barrier and a pedestrian gate.
- 6) Cross a disused railway line, pass through another pedestrian gate and motorbike barrier. Continue ahead on the distinct path leading down to a bridge. Cross over the footbridge over a small river and through another barrier onto the obvious path which bends right.
- 7) Where a path joins from the left, continue straight ahead as indicated by the post. After 130m you meet a gate to the left of which is a gap. Pass through the gap and continue straight ahead along the obvious track.
- 8) After a further 190m you reach a fork in the track. Take the left fork. This is a wide track and soon swings right and rises passing large modern warehouses on your right. After 630m the track drops to meet some metal gates.
- 9) Pass through and bear 45 degrees right to cross the road to meet a track on the opposite side. Turn onto the track signed Clowne Greenway 480mts, pass through the gate and follow the track uphill with the “Bilstein unit” to your right.
- 10) The track levels out and swings a little right and after the 480m you meet the start of the Clowne Greenway path. Turn left to follow the Greenway. You will walk along this track for the next 4 kilometres.

- 11) Continuing along the Greenway you will pass through the underpass under the M1 motorway. The path now takes you through a small area of woodland and shortly after that you will pass under a small bridge. The path is still mostly under trees. As you emerge from under the trees stay on the Greenway, don't be tempted to leave via an exit ramp. Pass under several bridges. You are now walking through, or rather underneath, Clowne.
- 12) As you reach the 4km mark! You will pass under a brick arch bridge immediately followed by a small pedestrian bridge. Then notice an old railway signal on your right. Immediately after this is the site of the old Clowne railway station.

**This is CHECKPOINT 6.**
